Regenerative Mask  
For Dehydrated & Ageing Skin.

**Discover**  
the world of Bio-Pacific Skin Care

In today's busy world, we sometimes tend to take our skin's health for granted, forgetting that it is the largest organ in the body and a very vital one.

Formulated with integrity to respect your skin's complex physiology, Bio-Pacific Skin Care is a truly unique program. This is skin care based on pure, high quality bio-compatible active ingredients, extracted from botanical and other natural sources. As you would expect, these ingredients are more easily recognized and utilized by the body, allowing Bio-Pacific Skin Care to deliver real and visible results.

As a practising skin therapist for many years, I have had the great pleasure of helping people around the world to improve their skin and, in many cases, change their lives. Our aim is to help you achieve healthier, more vibrant and younger looking skin, with products that support its intrinsic balance and harmony.

So be sure to take the opportunity to talk to your skin therapist about your skin, and any concerns you may have. They can prescribe suitable home care products and professional treatments, putting their expertise and experience at your service.

After all, your skin is our best advertisement.
